FNAR377 – Information Design and Data Visualization
Independent Project Proposal
Due: Tuesday, February 10th 2015

MLB Dashboard

A data visualization in real time of how individual teams are doing in the 2015 MLB Season

The goal of the project is to create a real time data visualization of the 2015 Season of the Major League Baseball (and potentially further onwards) that allows the viewer to be able to tell in a glimpse how a team is doing within the division as well as the entire league.
